The purpose of the U.S. Green Building Council (USGBC) Student Group is to foster scientific study and research in the field of environmentally sustainable building and operation of buildings. To develop and disseminate knowledge in sustainable bldg. research and design; to improve the methods and design of sustainable buildings and to develop better public understanding and appreciation of the challenges and solutions posed by improved sustainable building practices and the sustainable operation of existing buildings. To cultivate leadership skills among USGBC student group members that will prepare them to champion sustainability on campus, in their community and in future careers.

Membership is open to ALL students enrolled at MCC
