CONFERENCE IN CAPS

# Muskegon Community College Facts

Muskegon Community College, designed by Alden B. Dow, features an enclosed courtyard through which Four-Mile Creek flows under the wings of the main building. The 111-acre campus is made up of the Academic Complex, the Technology Building, the Hendrik Meijer Information Technology Center, Bartels-Rode Gymnasium, the Stevenson Center for Higher Education, and the Frauenthal Foundation Fine Arts Center.

Opening in January of 1995, the Stevenson Center for Higher Education houses upper-level courses and programs offered by Ferris State, Grand Valley State, and Western Michigan universities. These institutions, in partnership with Muskegon Community College, form an educational consortium to coordinate offering to best meet the needs of West Michigan shoreline residents.

The campus is bounded on the west by U.S. 31; on the north by Stebbins Road; on the east by Quarterline Road; and on the south by Marquette Avenue. In addition to the academic facilities, the campus also contains a planetarium, art building, nature trail, theater, and art gallery, and outdoor athletic facilities. Parking is available for 2,000+ vehicles in the north and south lots.

Bartels-Rode Gymnasium is located just south of the main academic complex. The multi-purpose facility houses a physical fitness center, a free weight room, training room, classrooms, a computer lab, and a television control room. The baseball diamond, softball field, and six tennis courts are located adjacent to the gymnasium.
