PREFACE

This statement of policy shall supersede any previous board action except board actions not specifically addressed in this document.

I.00.00 PURPOSE OF BOARD POLICY MANUAL

A two-year college board should operate within a pattern of carefully conceived and clearly stated policies. The Board of Trustees of Muskegon Community College is the final authority in setting policy for this institution. Board policy provides the basic guidelines for discretionary action by the administration. The Board of Trustees approves the rules and regulations that are consistent with its policies.

The purpose of this Board Policy Manual is to provide the Board of Trustees with basic principles of action upon which to build consistent and stable administration, to aid in the orientation of new board members and college personnel, to set forth a basis for the evaluation of educational services, and to assist in relating the college to the public it serves.

Board policy is established only by board action in public session. Records of this policy are included in a board policy manual as amended. The Board Policy Manual is the official compilation of policy determined by Board of Trustees action.

I.01.00 HISTORY OF THE COLLEGE

Muskegon Junior College was established by the Muskegon Board of Education in 1926, and was housed on the third floor of what was then the new Muskegon Senior High School. It was a pioneering effort since only four other two-year institutions existed in Michigan at the time.

By 1934, enrollment of both the college and the high school had grown beyond the capacity of a single building. The junior college, therefore, moved into the former Hackley School in downtown Muskegon across from Hackley Park (now the Board of Education Building).

It was appropriate that the college should occupy the old Hackley building, which had been presented to the public schools of Muskegon by Charles H. Hackley after fire had destroyed the original Central School. Mr. Hackley believed that a community was obliged to offer its youth the kind of training that would enable them to earn a good livelihood and at the same time contribute to the well-being of the community.

I.01.00 HISTORY OF THE COLLEGE (*continued*)

At the time of its move into this facility and for 17 years thereafter, Muskegon Junior College was primarily geared to those students intending to complete at least four years of college. Muskegon's reputation in this field of the "college transfer" program was an enviable one, and continues to be so today.

Then in June 1951, after an enabling act by the Michigan Legislature, the name and educational scope of the college was changed. "Muskegon Junior College" became "Muskegon Community College" (MCC), thereby reflecting the expanded nature of the college's programs.

MCC's programs were broadened to serve a larger number of students with a wider variety of interests. Courses were added in retailing, the vocations, the technical fields, public health, and the trades. These courses enabled young men and women to prepare themselves for a specific field of employment in two years of training beyond high school. There was no shrinking of the transfer program, only an expanded curriculum to serve a larger segment of the community.

In the post-World War II years, enrollment climbed quickly and the community college "campus" had to grow accordingly. The Muskegon Board of Education, which still operated the college, utilized available space in many of its buildings, and rented other community facilities as needed. Indeed, by the early 1960s, enrollment had topped 2,000 and the college was operating full-time at Hackley, Vanderlaan and Wilson Schools, and part-time at eight other locations. The time had come for another step in the development of the college.

The Board of Education formed a Special Citizens Committee to study the entire program and make recommendations. The committee proposed that the college be separated from the public school system, that a county-wide community college district be created, that a board of trustees be elected to plan, build, and operate the school, and that millage be voted in sufficient amount and for enough years to build and operate the college.

In April 1963, the county overwhelmingly approved the recommendations of the committee and elected the first Board of Trustees. The elected board went to work immediately and by September of that year had purchased the 111-acre campus on which the college exists today.

I.01.00 HISTORY OF THE COLLEGE (*continued*)

Alden B. Dow and Associates was named architect and by the summer of 1965, drawings were completed and construction begun. The vocational-technical wing was completed and occupied in the fall of 1966, and the following September the entire complex was placed in service. Formal dedication ceremonies were held October 22, 1967, with Dr. Ashley Montagu, one of the world's foremost anthropologists, delivering the dedicatory address.

When the county-wide district was created, the name of the college was changed to Muskegon County Community College. In the spring of 1969, at the request of the Board of Trustees, the State Board of Education approved changing the name once again to Muskegon Community College.

The first addition to the new campus was the Frauenthal Foundation Fine Arts Center, completed in 1968, and named for the Muskegon industrialist whose gift had made the center possible – A. Harold Frauenthal. The Fine Arts Center houses the music and theater programs as well as Overbrook Theater. The college is proud to have presented many fine plays, concerts, lectures and debates from the Overbrook stage to the community at large.

January 1995, opened a new era of educational opportunity with the construction of the Center for Higher Education on MCC's campus. The 90,000-square-foot high-tech center houses upper-level courses and programs offered by Ferris State, Grand Valley State, and Western Michigan Universities. These institutions, along with MCC, have formed a consortium to coordinate offerings to meet the needs of West Michigan residents. In 2001, the center was renamed the James L. Stevenson Center for Higher Education in honor of the MCC president who conceptualized and tirelessly guided the project to its successful completion.

For years, Muskegon County was in desperate need of a cutting-edge career tech facility for high school students. The college and the Muskegon Area Intermediate School District collaborated and proposed a plan whereby the college would build the facility on its property and the MAISD would lease and operate it. In 2002, the good citizens of Muskegon County approved the necessary millage, and in January 2004, the Career Technology Center opened its doors on MCC's campus. The facility boasts geo-thermal heating, a wind-powered generator and many other high-tech features.

I.01.00 HISTORY OF THE COLLEGE (*continued*)

MCC continued its push for 21st-century facilities when, in January 2006, it opened the Hendrik Meijer Library/Information Technology Center (LIT). The LIT, named in honor of the father of the facility's primary donor, Frederik Meijer, offers students and the community state-of-the-art library facilities/technologies, classrooms and an Internet café. The 40,000-square-foot structure has three levels overlooking woods and creek, and offers special services including interlibrary loan, group study rooms, and workstations for visually impaired persons. In short, MCC has a history of doing whatever it takes to effectively serve the citizens of Muskegon County and beyond.

2.01.09 INDIVIDUAL AUTHORITY OF MEMBERS

Board members have authority only when acting as a Board of Trustees, legally in session. No member or employee of the Board of Trustees has the power to act in the name of the Board of Trustees outside of board meetings unless specifically authorized by the Board of Trustees, in public session, to do so.

B. Vacancy Appointment

Whenever a vacancy in the Board of Trustees occurs, the remaining members of the board by majority vote shall fill the vacancy immediately with a qualified elector of the community college district. Any person so appointed shall hold office until the next regular community college election held for the election of members to the Board of Trustees in the community college district at which time the electors of the community college district shall fill the office for the unexpired portion of the term.

2.01.13 REMUNERATION

2.01.14 RULES OF ORDER

The parliamentary procedures for conduct of all meetings will be governed by *Robert's Rules of Order Newly Revised* in all cases to which they are applicable and in which they are not inconsistent with the by-laws, or other applicable laws.

2.01.15 BOARD MEMBER ELIGIBILITY FOR COLLEGE POSITIONS

No board member may be eligible for employment at the college either concurrent with his/her term or until twelve (12) months after the member's term expires or the member resigns from office.

2.01.16 TRUSTEE EDUCATION

Board of Trustee members are expected to participate in educational activities that enhance their ability to govern effectively as community college trustees and in articulating college services to the community.

To support this effort, the college shall maintain membership in state and national educational and trustee organizations that provide formal in-service training opportunities, including, but not limited to ACCT and MCCA for board members. Reasonable expenses for attending these meetings shall be paid by the college. The chairperson of the Board of Trustees will monitor the attendance of trustees at such activities to: assure institutional representation; encourage trustee participation; and approve expenses.

Institutional membership in trustee organizations, the assignment of delegates to these organizations, and trustee participation in in-service training activities shall be discussed at the biennial organizational meeting, or any other time deemed necessary by any trustee or the president of the college.

2.01.17 CONFLICT OF INTEREST

A trustee shall not have any direct pecuniary interest in a contract with the college, nor shall he or she furnish directly any labor, equipment, or supplies to the college.

In the event a trustee is employed by a corporation or business or has a secondary interest in a corporation or business that furnishes goods or services to the college, the trustee shall declare his/her interest and refrain from debating or voting upon the question of contracting with the company.

It is not the intent of this policy to prevent the college from contracting with corporations or businesses because a trustee is an employee of the firm. The policy is designed to prevent placing a trustee in a position where his/her interest in the college and his/her interest in

2.01.17 CONFLICT OF INTEREST (*continued*)

his/her place of employment (or other indirect interest) might conflict and to avoid appearances of conflict of interest even though such conflict may not exist.

2.01.18 FEDERAL FUNDS

No federal appropriated funds shall be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the making of any federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal grant or cooperative agreement. If any funds other than federal appropriated funds are paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with a federal grant or cooperative agreement, the college shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

2.01.19 SUPPLANTING OF STATE OR LOCAL FUNDS

Federal funds received by the college will be so used as to supplement, and to the extent practicable, increase the amount of state and local funds that would, in the absence of such federal funds, be made available, and in no case supplant such state or local funds.

2.02.00 ADMINISTRATIVE STRUCTURE

The purpose of administration in a community college is first and foremost to promote and support the instructional program. Administrative activity should facilitate teaching by faculty and learning by students if it is to perform its function in a satisfactory manner. The community college exists to be of service to people, and administrative services must facilitate this objective.

The functions of administration are classified into the following areas:

1. Office of the President
2. Academic Affairs

2.02.00 ADMINISTRATIVE STRUCTURE (*continued*)

- 3. Administrative Services
- 4. Student Services

2.02.01 TABLE OF ADMINISTRATIVE ORGANIZATION

Details of the table of administrative organization will be submitted by the president from year to year, in connection with the proposals for the salary and contractual arrangements, for the consideration of the Board of Trustees.

All appointments to the administrative staff will be made only when the job description accompanying the position is approved by the Board of Trustees.

2.02.02 INTERNAL ORGANIZATION

The Board of Trustees reviews annually the administrative and professional staff positions. The approved positions are published as the Staffing Table for that ensuing contractual year. The Board of Trustees of Muskegon Community College (or those designated by them) has full authority pertaining to assignments, salaries, terms of contract and evaluations of all administrative personnel.

2.02.03 FUNCTIONS

Overall responsibility for the operation of the college is assigned to the president. It is the president's responsibility to organize the college to provide adequate development and supervision of its three (3) major functional areas: academic affairs, administrative services and student services. Additional functions of development, research, informational services and information technology are considered to be staff functions that support these three major categories.

2.03.00 POLICY RESPONSIBILITIES OF ADMINISTRATION AND FACULTY

In matters of institutional affairs, administrative personnel have the responsibility generally for execution of policies and coordinating policy development in all areas of the college to reflect the input of institutional planning and long-range goals.

2.03.00 POLICY RESPONSIBILITIES OF ADMINISTRATION AND FACULTY (*continued*)

In matters of instructional affairs, faculty have the responsibility for recommending and formulating policy (except in those areas assigned by law to specific offices) as they participate either individually or through representation in established process. The faculty will be asked to consider suggestions and recommendations made by individuals, committees, task groups, departments, or divisions following investigation, review and the recommendation of the appropriate council, before such matters are adopted as policy or procedural action.

2.04.00 THE COUNCILS

Broadly stated, matters of institution can be most meaningfully developed, coordinated, implemented and evaluated when the internal institutional structure permits and encourages participation and involvement by representatives from the college community. Therefore, four (4) permanent councils are representative of the major instructional functions of the college:

1. Instructional Affairs Council
2. Student Services Council
3. Business Administrative Council
4. Information Technology Council

A fifth council, a Coordinating Council, will serve as the clearinghouse of all actions put forth by the above-named councils. The Coordinating Council will expedite and implement all recommendations made by the councils.

These councils, in cooperation with the administration, Faculty Association, Student Government Association and non-teaching associations, provide orderly channels for seeking opinions, expressing ideas and developing recommendations. It is expected that these councils will be primarily policy-planning and recommending in their functions. However, it is conceivable that the councils may, on occasion, serve as sounding boards for determining the merit of a new idea or to discuss the feasibility of calling for a review of established policies, practices and/or procedures.

2.05.00 PUBLICATION OF OFFICIAL DOCUMENTS

The board shall authorize the publication and distribution of official college documents, such as the catalog, student handbook, etc., which shall state the procedures, regulations, guidelines and information necessary to carry out the board policy in a manner not inconsistent with board policy. All such publications shall be approved by the president or his/her designee and may, from time to time, be amended consistent with this policy.

feelings and thoughts of the students are revealed. When this occurs, it is the counselor's responsibility to treat both the student and the information in a confidential manner. The counselor shall refrain from revealing information imparted in confidence except when failure to do so may seriously endanger the welfare of the student or others. When, in the counselor's professional judgment, a student demonstrates serious problems of this nature, the student will be referred for further assistance. Any such action will be recorded by the counselor and placed in a private professional file.

B. Student Confidential Files

With full intent to be in complete compliance with Section 438 of the General Education and Provisions Act (Title IV of Public Law 90-247 as amended) more frequently referred to as the Family Educational Rights and Privacy Act of 1974:

- g. Accrediting organizations in order to carry out their accrediting functions;
- h. Subject to regulations of the Secretary, in connection with an emergency, appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other person.

Regulations governing the awarding of these grants are approved by the Board of Trustees, administered by the Director of Athletics and awarded through the Financial Aid Department.

Limitations on numbers (per sport) and amount of grants (per athlete) are set by the NJCCA. Muskegon Community College also limits the number of grants that may be awarded to out-of-service-area students to no more than 50% of the total amount available.

4.09.00 STUDENTS' FEES/FINANCIAL OBLIGATIONS

Students' fees for tuition, registration and for instructional services, supplies, and use of equipment are established by the Board of Trustees upon the recommendation of the college and are published biennially in the college catalog. Students must meet all financial obligations to be eligible for college services (i.e., registration, graduation, release of grades, records, etc.). In the event such fees or fines are not paid, a hold will be placed on college records and transcripts and campus privileges may be revoked.

4.09.01 TUITION AND FEES

- A. The Board of Trustees of Muskegon Community College recognizes and supports the “open-door” philosophy and bears in mind the following:
 - 1. That all courses and program offerings should be available to students at the lowest possible cost.
 - 2. That there are students who must have assistance in meeting initial tuition and fee costs in order to be able to attend college.
 - 3. That the college should adhere to sound college financial management and good business procedures.
- B. Payment and Collection of Tuition and Fees:
 - 1. No student may register if money is owed the college from previous academic session(s), unless approved by the Financial Services Department.

4.09.01 TUITION AND FEES (*continued*)

3. No credits, grades, transcripts, or transfer of credit will be issued for anyone owing money to the college unless approved by the Vice President of Finance and Administration or his/her designee.
4. Students who cannot pay tuition and fees in full should make arrangements with the Director of Financial Aid for a loan and/or other forms of aid.
5. No person (administrator, faculty member, or clerk) other than the Director of Financial Aid, or designee, shall approve loans or deviate from the standard policy.
6. Students auditing classes will pay the same tuition and fee costs as though they were taking the courses for college credit.

C. Refunds

1. Tuition refunds for official withdrawal from classes will be granted as follows:
 - a. Withdrawal must be by the eighth day of the semester (beginning with the first day of the semester) to obtain a 100% refund; during the summer, by the fourth day of the session.
 - b. Withdrawal within the ninth through the twelfth day of the semester is required to receive a 50% refund; during the summer, within the fifth through the seventh day of the session.
2. Refunds for classes less than a full semester are adjusted proportionately to the length of class.
3. No refunds will be given for withdrawals after the twelfth day of the semester; during the summer, after the seventh day of the session.

4.09.01 TUITION AND FEES (*continued*)

4. Refundable class fees will be refunded according to the same schedule as tuition.
5. Refund forms must be received by the last date of the application refund period.
6. A 100% refund will be automatically given for any class that is canceled by the college.
7. At the discretion of the college, advanced tuition and fees will be refunded to the family or estate of any enrolled student who dies.
8. Tuition and fee refunds may be considered in case of extenuating circumstances (illness, change of residency, etc.) where a student involuntarily terminates enrollment. A student who desires consideration for a refund under this item must address a request to the Petitions Committee, which will rule on the question.
9. All refunds will be applied first to any outstanding college debts, before the balance is paid to the student.
10. Refunds will be issued after the end of the 50% refund period.

The above refund policy may be subject to modification by applicable regulations of the U.S. Department of Education, the Michigan Department of Education or other regulatory or accrediting agency.

D. Tuition Certification

The Board of Trustees shall certify to the legislature the schedule of tuition and student fees, as required by law and shall publish them in the college catalog.

4.09.01 TUITION AND FEES (*continued*)

E. Continuing Education Classes/Courses

Courses developed and offered through Continuing Education, where objectives and subject matter coincide with the ongoing curriculum at the college, will be assigned an equivalent proportionate credit hour designation with fees that reflect the regular tuition rates applicable for any given academic year.

Recognition of non-degree educational activities for business and professional persons who take instruction in conjunction with their professional association will be recorded through the Continuing Education Unit (CEU).

When it is appropriate, the college will bill groups for all fees of participants in these courses. Individual students must register with the college and all students will automatically receive college credit for successful completion of the work (if the college faculty have approved college equivalency).

F. Non-credit Courses

Those short-term courses and seminars for which there is no equivalent proportionate credit hour to the regular college curriculum will be assigned fees that are commensurate with the expense incurred in offering the short-term course or seminar.

G. Study Opportunities for Adults and Mature Citizens (S.A.M.)

Any student who is 60 years of age or older as of the first day of classes, and who is a legal resident of Muskegon County, is eligible to receive a SAM waiver to cover the tuition charge for any class or course that is eligible for state reimbursement. The SAM Waiver may be limited because of classroom space limitation or the need to add additional sections.

4.11.00 ACADEMIC GOOD STANDING/SATISFACTORY PROGRESS STANDARDS FOR FINANCIAL AID RECIPIENTS

A. Introduction

To qualify for financial aid, a student must make satisfactory academic progress toward the completion of a degree program. This policy applies to all students who apply for help from any federal or state financial aid program. It also applies to any other program administered by the college that requires satisfactory academic progress as a criterion for eligibility. This policy is separate from the college’s general probation/dismissal policy (see “Dismissal, Academic” in the index of the college catalog).

B. Standards for Eligibility

Students are making “Satisfactory Academic Progress” if they meet the following conditions:

- I. Maintain a cumulative grade point average (GPA) of not less than the following:

<u>Credit Hours Completed</u>	<u>Minimum GPA Required</u>
1 – 11	1.50 cumulative
12 and above	2.00 cumulative

4.11.00 ACADEMIC GOOD STANDING/SATISFACTORY PROGRESS STANDARDS FOR FINANCIAL AID RECIPIENTS (continued)

2. Complete with a passing grade (that is, an A, B, C, D, or P, including a grade with a “+” or “-”) two-thirds of the cumulative hours attempted. All withdrawal grades, incompletes, no-credit grades, and repeat classes are considered as hours attempted.
3. Complete their declared major within the maximum limit: For federal aid programs, once a student has attempted 150% of the number of credits normally required to complete a degree, the student will not be eligible for any additional federal aid at MCC. Transfer credits classes do not count in the calculation of the GPA, but they may be included in the calculation of the Maximum Limit.

	<u>Credits Required</u>	<u>150% limit</u>
Regular ASA/AAS degree	62	93
Nursing	84	126
Respiratory Therapy	103	155

If a student fails to make satisfactory academic progress at the end of a semester, the student will normally be allowed to receive aid for an additional probationary semester. If the student still has not made satisfactory academic progress at the end of the second semester, the student may not be eligible for any more aid until the student 1) raises his/her cumulative GPA up to the minimum required, or 2) earns enough credits to meet the minimum cumulative required. If the student needs to take any classes to make satisfactory academic progress, the student will have to pay for them him/herself.

C. Loss of Eligibility, Appeal, and Reinstatement

If a student is denied aid under this policy, the student has the right to appeal. The appeal must be in writing, and addressed to the Financial Aid Review Committee, c/o the Financial Aid Office. The committee will normally consider such things as illness, a change in job schedule, or other extenuating circumstances (which were beyond the student’s reasonable control) as grounds for a successful appeal. The student should provide documentation (for example, a doctor’s statement), if appropriate.

4.11.00 ACADEMIC GOOD STANDING/SATISFACTORY PROGRESS STANDARDS FOR FINANCIAL AID RECIPIENTS (*continued*)

If a student wants federal aid to earn a second degree (or additional classes leading to a bachelor's degree at another school), the student must appeal in writing, stating academic goal, and provide documentation (such as a "graduation audit") of the classes needed to accomplish that goal.

This policy states the minimum required for most financial aid programs. However, some scholarship and loan programs require a higher standard (usually a higher GPA).

Therefore, a student may qualify for most aid programs by meeting the above conditions, but be denied a specific scholarship or loan unless the student raises his/her GPA or passes additional credit hours.

4.12.00 CODE OF CONDUCT - STUDENTS AND VISITORS

All students and visitors are required to comply with the provisions of the Code of Conduct for students and visitors. Information regarding the code, disciplinary procedures and due process is contained in the student handbook available in the Student Life Office and the Student Services Center. These documents define student and visitor conduct expected in the academic community and provide procedures to handle infractions of the code.

4.13.00 STUDENT HANDBOOK

All students are required to comply with the provisions of the current student handbook available in the Student Life Office, Student Welcome Center, and online at <http://www.muskegoncc.edu/PDFFiles/Student%20Services/MCC%20Student%20Handbook%202012-13.pdf>

4.14.00 ACADEMIC INTEGRITY

Muskegon Community College expects that all faculty and students will adhere to high standards of personal and academic honesty. This means that all academic work will be done by the student to whom it is assigned, without unauthorized aid of any kind. Faculty members, for their part, will exercise care in the planning and supervision of academic work so that honest effort will be positively encouraged.

5.04.00 AUTHORIZATION TO PURCHASE OR CONTRACT

The president and/or designee is authorized and empowered to purchase or contract in the name of Muskegon Community College subject to approval or ratification by the Board of Trustees.

The Board of Trustees may waive the sealed bid requirement for items, services, or construction costing more than \$25,000 when (1) time constraints and the best interests of Muskegon Community College necessitate immediate action; (2) there is reason to believe the items, services, or construction are of a sole-source nature; or (3) there is reason to believe negotiations with one provider regarding the price of the items, services, or construction would be in the best interests of MCC. When required by the terms herein, the president will recommend award of bid to the Board of Trustees for approval.

The Vice President of Finance and Administration will make every effort to secure an adequate number of bids or quotations depending on the circumstances. The seeking of bids or quotations may be made by advertising in local newspapers, by telephone to qualified vendors, by inquiry through unbiased agencies, or by any other method deemed advantageous to the college.

The Board of Trustees or its specified agent may reject any or all bids and may give preference to local bidders or vendors.

The lead partner and the primary audit manager must rotate off of the audit every five years in a staggered rotation. Since the lead partner and the primary audit manager represent the top two positions on the college audit engagement team, both positions should not be changed at the same time.

If a decision is made to solicit bids, the college will place an ad in the local paper seeking agencies who are interested in doing the college audit. Audit specifications will be sent to parties requesting them.

5.06.00 INSURANCE
