COMPUTER INFORMATION SYSTEMS

Introduction to Personal Computers

Which Introduction to Personal Computers course is right for me?
MCC offers this course in two formats:

CIS100: 1 Credit Hour / 1 Contact Hour

This course is designed for students with some prior experience with personal computers and who feel comfortable with the basic operations of a computer including file management, word processing, email, internet use, and security. Students with little to no experience with computers should enroll in CIS100L&L, which allows students extra time with their instructor.

CIS100L&L: 1 Credit Hour / 2 Contact Hours

This course is designed for students with little to no experience with computers and students who feel uncomfortable with using computers. Students have an extra lab hour with their instructor to meet the same objectives as CIS100.

Not sure which one is right for you? Visit or call our Testing Center, Room 134, 231-777-0394 to make arrangements to take a "Pre-Test" for a recommendation on which format would be best suited for you.

IMPORTANT NOTICE: Note the number of weeks each section meets and take the following into consideration when choosing your section:

Number of Weeks Section Meets: 5

Considerations: Triple-paced sections meet for 5 weeks. Students must be highly motivated to succeed. Students that are uncomfortable with an intensified pace should register for a full 15-week section.

Number of Weeks Section Meets: 8

Considerations: Double-paced sections meet for a half semester. Students must be highly motivated to succeed. Students that are uncomfortable with an intensified pace should register for a full 15-week section.

Number of Weeks Section Meets: 15

Considerations: Full Semester sections meet for the entire semester. Students may choose CIS100 or CIS100L&L, as described above.

NURSING

Associate Degree in Nursing – This is a two year program. Graduates are eligible to write the National Council Licensure Examination to become registered nurses (RN). Students are eligible to write the National Council Licensure Examination to become practical nurses (LPN) after the fourth semester of the program. The Nursing Program at MCC admits students once required competencies for entry have been met. Please contact the Counseling and Advising Center at 231.777.0362 for more information on Nursing Program admission. Excess Contact Hour Charges for Nursing Classes: There is an additional tuition charge for courses for which the number of CONTACT HOURS exceeds the number of CREDIT HOURS granted for the course. Contact hours generally represent the actual number of hours per week the course meets, including any labs or clinical instruction. An additional tuition charge applies when the number of contact hours is greater than the number of credit hours. The additional charge is determined by multiplying the tuition rate by the number of contact hours instead of credit hours. Nursing classes also have course fees. Refer to our web site at <http://www.muskegoncc.edu> and access the semester schedule for information pertaining to course fees.

READING

The College Success Center is an open-lab center where reading, writing, math, research and study skill may be sharpened and strengthened. Many CSC courses are taught individually; most of them carry one hour of college credit.

NOTE: Sign up for College Success Center courses during registration. Then, the first day of classes, come down to Room 401 and select a conference time to see an instructor. Students who have not come down to the CSC by the end of the first week will be withdrawn. CSC courses can be arranged to fit into almost anyone's day or evening schedule.

Your English Placement Test will tell you which reading and writing courses are required of you or which courses are available to you.
