The services covered by this Request for Proposal (RFP) may include skip-tracing, asset searches, related activities required for verifying and collecting accounts, litigation, execution of judgments, and credit bureau reporting. This RFP is written for all candidates so that they understand the services requested. Each recipient of this RFP is reminded that this and all related materials provided by Muskegon Community College not previously released to the public are confidential. Do not reveal any materials or otherwise disclose their content to any other party for any reason without Muskegon Community College’s explicit written consent.

1.2 Location of Work. The intended coverage of this RFP and any Agreement resulting from this solicitation shall be for the use of the Financial Services Department of Muskegon Community College, located at 221 S Quarterline Road, Muskegon, MI 49442.

1.3 HISTORY OF MUSKEGON COMMUNITY COLLEGE

Muskegon Junior College was established by the Muskegon Board of Education in 1926 and was housed on the third floor of what was then the new Muskegon Senior High School. Continued growth saw the College expand to a number of building sites throughout Muskegon.

In June of 1951, after an enabling act by the Michigan Legislature, the name and educational scope of the College was changed. “Muskegon Junior College” became “Muskegon Community College,” thereby reflecting the expanded nature of the College’s programs. They were broadened to serve a larger number of students with a wider variety of interests. There was no shrinking of the transfer program, only an expanded curriculum to serve a larger segment of the community.

In the post World War II years, enrollment climbed quickly and the Community College “campus” had to grow accordingly. The Muskegon Board of Education, which still operated the College, utilized available space in many of its buildings, and rented other community facilities when enrollment exceeded the capacities of those buildings. By the early 1960’s, enrollment had topped 2,000 and the College was operating full-time at Hackley, Vanderlaan, and Wilson schools and part-time at eight other locations.

The Board of Education formed a Special Citizens Committee to study the entire program and make recommendations. The Committee proposed that the College be separated from the public school system, that a board of trustees be elected to plan, build, and operate the school, and that millage be voted in sufficient amount and for enough years to build and operate the College. In April of 1963, the county overwhelmingly approved that a county-wide community college district be created and elected the first Board of Trustees. The elected board went to work immediately and by September of that year had purchased the 111-acre campus on which the College exists today.

With an enrollment of nearly 5,000 students, the College exists today in its eighth decade of service to area citizens. January 1995 opened a new era of educational opportunity with the completion of the Muskegon Center for Higher Education on the campus of Muskegon Community College. The Center houses upper-level courses and programs offered by Ferris State, Grand Valley State, and Western Michigan universities. These Colleges, along with Muskegon Community College, have formed a “consortium” to coordinate offerings to meet the needs of West Michigan residents.

The Meijer Library and Information Technology Center opened January 2006. This state of the art facility boasts over 250 computers for student use, internet access to over 15,000 books and over 60,000 books available for research.

Fall of 2008 the campus will open with a newly renovated Student One Stop Center, Nursing Labs, College Success Center and Administrative Office area. These improvements continue the long legacy of continual growth and improvements at Muskegon Community College.

The Financial Services Department at Muskegon Community College is responsible for student accounts including all past due accounts. Internal collection efforts consist of sending statements, making phone calls as well as sending letters and email correspondence. Once internal collection efforts are exhausted, typically at 180 days past due, the account is then referred to an outside collection agency. Currently, Muskegon Community College does not contract with any collection agency.

1.4 **Possibility of Contract Award.** Muskegon Community College intends to review the proposals and possibly award a new contract for collection services as a result.

1.5 **Length of Contract.** If a contract is awarded, it will be for a term of three years with an option to renew annually.

1.6 **Number of Vendors.** The College intends to maintain contracts with no more than two vendors.
