MESSAGE FROM THE VP OF ADMINISTRATIVE SERVICES

As we face the many challenges of life – state budget woes, new administrative system, the Student One-Stop project with our temporary moves, etc., we need to rely on our friends which led me to the following story:

Two Horses (Author – unknown)

Just up the road from my home is a field, with two horses in it.

From a distance, each horse looks like any other horse. But if you stop your car, or are walking by, you will notice something quite amazing ---- Looking into the eyes of one horse will disclose that he is blind. His owner has chosen not to have him put down, but has made a good home for him ---- This alone is amazing.

If you stand nearby and listen, you will hear the sound of a bell. Looking around for the source of the sound, you will see that it comes from the smaller horse in the field. Attached to the horse’s halter is a small bell. It let’s the blind friend know where the other horse is, so he can follow.

As you stand and watch these two friends, you’ll see that the horse with the bell is always checking on the blind horse, and that the blind horse will listen for the bell and then slowly walk to where the other horse is, trusting that he will not be led astray.

When the horse with the bell returns to the shelter of the barn each evening, it stops occasionally and looks back, making sure that the blind friend isn’t too far behind to hear the bell.

Like the owners of these two horses we do not throw someone away just because we are not perfect or because we have problems or challenges. We watch over each other and bring friends into our lives to help us when we are in need.

Sometimes we are the blind horse being guided by the little ringing bell. Other times we are the guide horse, helping others to find their way….

Good friends are like that … you may not always see them, but you know they are always there. Please listen for my bell and I’ll listen for yours. And remember ---- be kinder than necessary – everyone you meet is fighting some kind of battle.

Live simply – Love generously – Care deeply – Speak kindly –

Diana R. Osborn
Healthy Lifestyle Committee Mission Statement:
To create healthier and happier employees through awareness of health issues and wellness programs

Directions:
1. In a medium saucepan, stir together sugar and gelatin. Stir in milk and egg yolks. Cook and stir over medium heat until gelatin is dissolved and mixture just begins to bubble. Remove from heat. Stir in pumpkin, ginger, and vanilla. Transfer mixture to a large bowl. Cool about 20 minutes.

2. Fold dessert topping into pumpkin mixture. Spoon into 6-ounce tall glasses or serving dishes. Cover and chill about 5 hours or until firm. To serve, top each serving with a gingersnap half.

Make-Ahead Directions:
Prepare and chill as directed. Cover and chill for up to 24 hours. Serve as directed.

Makes 6 (1/2 cup) servings

Ingredients:
- 1/2 cup sugar
- 1 envelope unflavored gelatin
- 3/4 cup fat-free milk
- 3 egg yolks beaten
- 1 15-ounce can pumpkin
- 2 tablespoons finely chopped crystallized ginger or 1 teaspoon ground ginger
- 1 teaspoon vanilla
- 1/2 of an 8-ounce container frozen light whipped dessert topping, thawed
- 3 gingersnaps, halved

Halloween safety tips:

For Trick or Treaters:
- Walk, don’t run
- Stay in familiar neighborhoods
- Shoes should fit (even if they don’t go with your costume)
- (If no sidewalk) walk on the left side of the road facing traffic
- Wear clothing with reflective markings
- Approach only houses that are lit

For Parents:
- Make your child eat before going out
- If your children go out alone, make sure they have a watch that can be read in the dark if possible & know when to be home
- You should know where they are going
- Although tampering is rare, tell children to bring the candy home to be inspected before consuming anything

For Homeowners:
- Make sure your yard is clear of such things as ladders, hoses, flower pots or anything a young one can trip on
- Pets get frightened on Halloween, so put them up to ensure no accidents happen
- Non-Food treats are great too, including: plastic rings, pencils, stickers, erasers, and coins
Halloween Health Tip:
Here are some healthy food alternatives for trick-or-treaters:
♦ Low-fat crackers with cheese or peanut butter
♦ Single-serve boxes of cereal
♦ Mini boxes of raisins
♦ Single-serve packets of popcorn for the kids to microwave later

Wash That Produce!
American Institute for Preventive Medicine & Don R. Powell Ph.D.
Excerpted from "A Year of Health Hints"
365 Practical Ways to Feel Better and Live Longer
by Don R. Powell, Ph.D.

Health Hint #111
As a child, you were probably told to wash your hands before you ate. As an adult, you need to wash your hands and what you eat. Agricultural use of pesticides has doubled over the past two decades, despite research linking certain chemicals to nerve damage, genetic defects, and cancer. Since you don’t know which fruits and vegetables have been contaminated with what poison, the ideal preventive measure is to eat only produce you grow yourself, without use of pesticides. But that’s not practical for most people.

In lieu of that:
Whenever possible, buy domestically grown produce instead of imported. Studies have shown that produce grown in the United States contains lower levels of contaminants than foods grown outside the country. Be especially careful with peaches, celery, cherries, strawberries, and lettuce. A study conducted by the Natural Resource Defense Council, a San Francisco-based consumer group, found that these items were more likely to be contaminated than others. Corn, cauliflower, bananas, and watermelon were less likely to be affected.
