3. Public Comments and Presentations
   - Presentation – Medical Assisting Program and Future Health Programs
     – Denise Passage & Chris Patterson
       - Chris Patterson reported MCC’s Nursing and Respiratory Therapy programs are very successful, and MCC is looking to tap into some additional needs in the community.
       - Between 2014 and 2024 the healthcare field expects to add more jobs than any of the other occupations.
       - MCC is working with Trinity Senior Living Centers who is interested in financing our student’s education in the Home Health Aide and Nurse Aide programs. Trinity is looking to conduct onsite interviews with MCC students in clinicals in their facilities, so those students will have a job when they graduate.
       - Trinity has indicated they prefer MCC students, as they are better trained with our 7.5 week program than those who train in 3 week programs.
• MCC’s Health Care Support Assistant one-year program was highlighted by Denise Passage who stated Trinity approached MCC a few years ago requesting this program.

• Six healthcare organizations, three community colleges, Michigan Works, and the U.S. Dept. of Labor met and developed an apprenticeship program, the first of its kind nationally, and the first of its kind in Michigan. There are currently 16 students in the program – 8 are Trinity apprenticeship students, 1 is Spectrum, and 7 are non-apprenticeship students. These students were hired and are paid by Trinity or Spectrum, work three days a week, and are sponsored by these organizations. The students’ college is paid for, and when they are finished with the program they have a job at the site.

• Mercy is also interested in taking in MCC’s non-apprenticeship students, giving them a place to do their practicum, and then interviewing them for potential hires.

• The next cohort will begin Winter 2017, hopefully with more students. This is a one year certificate program, it is a credit program and flows into an Associate’s Degree. Students are hired in after one year and their Associates programs are paid for by their employer.

• MCC and Mercy are working together to develop additional programs.
