Respiratory Therapy Program
Re-admission Policy

1) The student must meet with the Program Director for the Respiratory Therapy (RT) Department to determine a detailed plan for re-entering the program.

2) The student must be able to perform specific and essential functions as provided in the Respiratory Therapy Program’s “Technical Standards” http://www.muskegoncc.edu/allied-health/rt-technical-standards/

3) The student must meet all entry requirements established by the Program including: 2.0 GPA, Criminal Background check, up-to-date immunizations, drug screen, and influenza vaccine.

4) The student must assure to the program faculty they have the clinical competency level necessary to enter into clinical practice rotations.

5) A student that has been out of the Respiratory Therapy Program for four (4) semesters or longer will be required to re-start the RT Program. If a student has been out of the RT Program for five (5) years or greater, in addition to re-starting the RT Program, the individual will be required to repeat Biology 105L&L and Biology 106L&L.
