

## Your Best Choice for Success

Whether you're a recent high school graduate, returning to the classroom to advance your career or seeking to start a new one, Muskegon Community College is your best choice for success in West Michigan.

MCC offers 50 associate degrees, 36 certificates, and several non-credit Continuing Education opportunities. Our graduates meet both today's occupational needs and Michigan's "Hot 50" high-demand, high-wage careers of the next five years.

Our award-winning faculty members teach a diverse community of over 5,000 dedicated students of all ages. They choose MCC for its life-changing educational programs, small class sizes, affordable tuition, flexible class scheduling, transferable credits and complete college experience.

The Internship Program will allow students to gain real world experience by strengthening their professional skills, gaining industry knowledge, and developing interpersonal relationships all within their respective field.

## Internship Programs

The Internship Program is a paid or non-paid field work experience in business and/or industry within the student's major area of study. The student will receive credit based on how many hours are available from the employing organization.

### Participation Requirements:

- Be currently enrolled at Muskegon Community College as a student
- Have a GPA of at least a 2.5
- Successfully completed a minimum of 6 credits in your major field of study or completed the degree Career Program Requirements as mandated by departmental standards
- Successfully completed a total of 30 hours of credit towards your degree

### Hour Conversions

1 credit hour .....	60 internship hours
2 credit hour .....	120 internship hours
3 credit hour .....	180 internship hours
